- **What we need most are volunteers with trucks to help transport these items from donor to client. An hour per month would make a huge difference!**

All items donated must be in good, clean and working condition, please.

Donations are received by individuals and families moving out of a homeless or shelter situation and working with a housing case manager to create a stable, permanent home life. You donate it. We pick it up and deliver it. A house becomes a home… one piece at a time.
